Hitarth Anand Rohra

hitarth.rohra@gmail.com | +916387106890 | hitaarthh.github.io
hitarth-rohra | Kanpur, Uttar Pradesh

Profile

A versatile professional with robust expertise spanning front-end and back-end technologies. A proven track record of delivering successful project outcomes through effective communication and collaboration. Skilled in fostering positive team dynamics to enhance overall project efficiency and success.

Education

Bachelor of Technology in Electronics and Computer Engineering,
Amrita Vishwa Vidyapeetham
10/2021 – present | Kollam, India
Current GPA - 9.59

Elementary and High School,
Sheiling House School (ICSE)
04/2004 – 07/2020 | Kanpur Nagar, India

Projects

Attendance Monitoring CMS
- Developed and deployed an effective content management system for students working at the Bi0s Lab at our university.

JustNameIt
- Conceptualised and deployed an innovative movie browser application, highlighting expertise in learning and implementing React JS and Bootstrap libraries for optimal project execution

Community Outreach

Drupal,
An Open Source Content Management System
08/2022 – present
- Actively contributing to Drupal community by resolving frontend and backend web technology issues, enhancing the capabilities of the versatile content management system.

Skills

Java *(Experienced)* | **C** *(Skillful)* | **Python** *(Skillful)*
Assembly *(Skillful)* | **HTML** *(Experienced)*
CSS *(Experienced)* | **JavaScript** *(Skillful)*
React JS *(Skillful)* | **SQL** *(Skillful)* | **Matlab** *(Skillful)*
Git/Github *(Intermediate)*
Linux Bash *(Intermediate)*

Areas of Interest

Embedded Systems

IoT (Internet of Things)

Machine Learning/Artificial Intelligence

Python, Java Software Development

Hobbies

Filmography and Photography
Writing & Blogging | Music & Piano | Travelling
Badminton | Football

Experiences

Drupal, *Open source*
08/2022 – present
- Active contributor to Drupal's open-source community.

CoDesign, *FrontEnd Developer*
- Building/Maintaining static and dynamic web pages for industrial clients.

teamBi0s, *Crew Member*
10/2021 – 11/2022 | Kollam, India
- Handled software development as a student researcher for different MCUs and making CTF challenges for industrial clients.

Student Social Responsibility Project
07/2023 – 12/2023

- Organised technical sessions (Cyber Security, C Programming, Arduino, Git/Github) and insightful awareness sessions on evolving global tech trends for university freshmen.

teamBi0s, *a student-run cybersecurity club at Amrita Vishwa Vidyapeetham*
10/2021 – 11/2022 | Kollam, Kerala

- Contributed to MCU software projects and designed CTF challenges for industrial clients, enhancing technical skills in the tech community.

Achievements

Hardware CTF Nullcon 2022
09/2022 | Bambolin, India

- Won the First Runner-Up Prize with teamBi0s at the Hardware Security CTF at the Nullcon security conference.

Self Initiated Courses

The Complete Web Development Bootcamp, *A comprehensive course for Frontend (HTML, CSS, JavaScript) and Backend (Node.js, Express) technologies for versatile web development applications."*
07/2023

Languages

English(UK/India) *(Read/Write/Speak/Understand)*

Hindi *(Read/Write/Speak/Understand)*

Sindhi *(Speak/Understand)*

Certifications

Microsoft Java Associate Enthusiast *(Credential ID - MJAE/1028/58/15843)*

MakeMyTrip Software Engineering Enthusiast *(Credential ID - MMTE/1028/58/25930)*

BlueOptima Java Software Engineer *(Credential ID - BJSE/1028/58/19157)*

Paper Presentations

Delivered a technical paper presentation at the 2023 IEEE International Conference on Next Generation Electronics (NEleX 2023).
12/2023 | VIT Vellore

Paper Title: "*An improved cross layer design for TCP optimization with flow control and acknowledgment aggregation*"

Workshops/Webinars Attended

Brain Body Dynamics, *Explored the synergy of brain-body dynamics, gaining insights into the correlation between cognitive functions and physical movement.*
05/2023 | Kollam, Kerala

Robo ML, *Applied hands-on learning to integrate Machine Learning into the field of Robotics, enhancing problem-solving proficiency in autonomous systems.*
05/2023 | Kollam, Kerala

Nullcon 2022, *Participated in the conference, gaining insights into the latest attack vectors, zero-day vulnerabilities, and unknown threats.*
09/2022 | Bambolin,Goa
